

Gitcoin Passport Roadmap

Feature	Description	Milestone / Why?	Dev Size	MMM Size	Status	Delivery Date	Notes	Feature Releases
Update Scoring model	Updating the scoring weights for all stamps based on learnings from recent partner campaigns	Grow Adoption & Usage	M		5 - Done	11/15/2023		
Updated Passport Dashboard	New, updated Passport dashboard following the new branding	Grow Adoption & Usage	L		5 - Done	11/1/2023		
Unified Grants Stamp	Create a comprehensive stamp that aggregates multiple grant contributions and activities into a single metric.	Grow Adoption & Usage	L		5 - Done	11/18/2023		
Update Coinbase Stamp	Include the new Identity Verification credentials from Coinbase's EAS implementation to strengthen the existing stamp	Improve Effectiveness	S		5 - Done	11/28/2023		
Scorer / Dev Portal Updates	Enhance developer portal to include detailed documentation to simplify the integration process	Partnerships	M		3 - Ready for dev	Q1 or Q2 2024	Scorer Github tickets: 1750, 1751, 1753, 1754	
ComposeDB Upgrade	Update the ceramic node to ComposeDB and reduce data discrepancies with the new updated node	Infrastructure / Technical Debt	M	M - comar	4 - In development	2/7/2024	Passport issues GH #1540 - #1545 Blocked / on hold due to the way credentials work on Compose Cannot release during GG19	
Updated Eth Stamp	Move from the existing Eth stamp to a new model based approach of scoring all of the addresses based on Eth activity. This new Data Science driven model will incorporate many more features than the existing credentials, make it harder for Sybils to forge, and will improve the accuracy of classifying Sybils	Improve Effectiveness	L		5 - Done	1/17/2024		
Reclaim Uber Stamp	New stamp using reclaim's protocol to zk prove credentials that enable users to prove their humanity globally based on their Uber history	Improve Effectiveness	M	S/M - elth	1 - Product research	TBD	Reclaim Protocol Website	
New ID staking contract	Ship improved smart contracts for ID staking that allow for more flexible and efficient staking	GTC Utility	L	XL	4 - In development	2/11/2024	Identity Staking v2	
Updated NFT Stamp	Move from the existing NFT stamp to a new model based approach of scoring all of the addresses based on NFT transactions and address behavior. This new Data Science driven model will incorporate many more features than the existing credentials, make it harder for Sybils to forge, and will improve the accuracy of classifying Sybils	Improve Effectiveness	L	M	1 - Product research	2/29/2024		
New ID staking website	Ship a new web app for ID staking aligned with new branding and features	GTC Utility	L	XL	2 - In planning	Feb 2024	Identity Staking v2	
ID staking slashing	Implement slashing mechanism to punish Sybils in the ID staking network	GTC Utility	L	XL	4 - In development	Feb 2024	Identity Staking v2	
ID Staking on OP	Deploying and integrating ID Staking v2 on OP mainnet	GTC Utility	M	XL	3 - Ready for dev	Mar 2024		
WeChat stamp	Improve our global inclusiveness, particularly with users in China by adding a wechat stamp to our pool of social providers	Grow Adoption & Usage	L		1 - Product research	TBD		
Aspecta Stamp	Replace Github stamp with Aspecta stamp to get significantly more valuable signals from Github	Improve Effectiveness	L		1 - Product research	TBD	Aspecta Website	
Passport Premium	Premium option for Passport users with account abstraction (use multiple addresses for a single Passport) notifications and premium Discord / Telegram channel	Revenue Experiments	XL		1 - Product research	S21	Need to create a full brief for this Epic	
Worldcoin Stamp	Biometric stamp based on Iris scan	Improve Effectiveness	M		1 - Product research	TBD		
Passport on additional L2s	Deploying and integrating Passport on-chain on additional L2s following EAS implementation on those chains. (Based on need / demand for partners on those chains)	Partnerships	M		1 - Product research	TBD	We will need to work closely with each respective EVM project to ensure a smooth and secure integration.	
OutDID Stamp	Add an OutDID stamp as an alternative zk KYC provider	Improve Effectiveness	M		1 - Product research	TBD	OutDID Website	
Public Eth model endpoint	create api endpoint for model underlying the new eth stamp	Partnerships	S		3 - Ready for dev	2/7/2024		
Custom Dashboards Tools	Allow admins to customize dashboards and scores				3 - Ready for dev	2/27/2024		
Avalanche Dashboard	Avalanche dashboard				3 - Ready for dev	2/13/2024		

Feature	Description	Milestone / Why?	Size	Status	Delivery Date	Notes	Feature Releases	
Revamped Twitter stamp	Updated stamp to improve Sybil defense with new stamp credentials	Passport Holder Experience	S	5 - Done	7/24/2023			
Allo Stamp	Index Alpha data and create a new stamp for grants through the Allo Protocol	Passport Holder Experience	M	5 - Done	8/15/2023			
Trusta Labs stamp	Integrate Trusta Labs stamp	Passport Holder Experience	M	5 - Done	8/15/2023			
CyberConnect Stamp	Social graph data from trusted partner working on sybil detection and prevention	Passport Holder Experience	M	5 - Done	8/23/2023		Phase 2 & Phase 3	
OnChain Stamps and Score	Ability for users to mint their Passport onchain for smart contract integrations without using API. Launch will likely be on OP	Onchain Scoring	M	5 - Done	8/30/2023	https://github.com/gitcoinco/passport/issues/1423		
Custom Linea / Verax Dashboard	Allow a direct link to a customized version of Passport describing Verax and enabling a user to 1 click push their passport to Verax on Linea	Onchain Scoring	M	5 - Done	10/23/2023			
Passport on Linea	Deploying and integrating Passport on-chain with Linea	Onchain Scoring	M	5 - Done	10/23/2023			

About this roadmap:						
-This should be updated at least 1x month by Product. Engineering will be consulted before any updates are made.						
-Subject to change at any time!						
-This is not meant to cover every effort -- only those that require 1+ weeks of dedicated time or are high visibility						
-These efforts are listed in the order we will work on them						
Status						
5 - Done						
4 - In development						
3 - Ready for dev						
2 - In planning						
1 - Product research						
0 - Not started						
Epic T-shirt sizes						
S	1 week					
M	2 weeks					
L	1 month					
XL	2+ months
